

3rd Low Emittance Lattice Design Workshop - LEL 2022

26-29 June 2022

Maxwell Auditorium ALBA
Cerdanyola del Vallès (Barcelona)

Contents of the workshop

- 3 commissioned projects: lessons learned
- 10 upgrade projects + 2 new projects/concepts (FCC-ee and beyond EBS) at various stages of design or realization, presented under different aspects

FIRST FACE-TO-FACE WORKSHOP since the pandemic... still **7 talks are given online**

A lot of talks and topics for a two and a half days workshop

We have to stick closely to the scheduled time... (**each talk is 15' + 10'**)

Discussion session of 50' each day

Please, **upload your presentations** to Indico

Visit to ALBA on Wednesday 29th: beam in operation.

We will visit experimental hall, service area, control room, magnetic lab, diagnostics lab...

!!!Big thanks to staff from ALBA involved in the organization of the workshop!!!
