Tuesday, 7 October 2025

Talks Tuesday Afternoon (14:15 - 17:25)

time	[id] title	presenter
14:15	[75] Advancing the Sample Space to Elevate the Power of Resonant X-ray Scattering.	RYAN, Philip
14:40	[48] Structural and Magnetic Chirality In NiCo ₂ TeO ₆	BOMBARDI, Alessandro Dr SCATENA, Rebecca
15:05	[67] Dispersion-Induced Pseudo-Extinction of the Bragg Reflection and the Magnetic Asymmetry in REXS from Ferromagnets	ADACHI, H
15:30	[61] Uniaxial Pressure Control of Charge Density Wave in ScV ₆ Sn ₆	CARNEIRO, Fellipe
15:50	Break	
16:10	[92] XMaS, The UK Materials Science Beamline At The ESRF	WERMEILLE, Didier
16:35	[62] Molecular and Electronic Structure at Electrochemical Interfaces from In Situ Resonant X-Ray Diffraction	SOLDO, yvonne
17:00	[66] MagStREXS: Magnetic Structures Through Resonant Elastic X-ray Scattering	Dr BERECIARTUA, Pablo J.
