How to explain positions, parts and assets to dummies?

Friday, 28 September 2018 09:00 (20 minutes)

One of the difficulties of many of our A&MM clients is to understand the differences between the entities that are used in A&MM: Positions, parts and assets.

In this mini presentation you will learn that these difficulties are in some sense strange as we are dealing with positions, parts and assets in our daily life all the time.
