Infor EAM in the Handling Engineering Group at CERN

Thursday, 27 September 2018 16:05 (30 minutes)

The mandate of the Handling Engineering (HE) group is to provide transport and handling services for the technical infrastructure of CERN, accelerators and experiments. This includes the design, the tendering/procurement, the installation, the commissioning, the operation, the maintenance and decommissioning of standard industrial and custom built transport and handling equipment.

This presentation will focus on the Asset and Maintenance Management Strategy within the group by using Infor EAM and EAM Light - an in-house developed “light” application. Different aspects will be presented like Equipment Structure, Meter Readings, Documentation, Work Orders, Spare Parts and Reporting.

Primary author: Mrs HAZELAAR-BAL, Cathelijne (CERN)

Presenter: Mrs HAZELAAR-BAL, Cathelijne (CERN)

Session Classification: Session IV Oral Presentations

Track Classification: Asset and maintenance management tools
