

# ALBA Synchrotron

*C. Biscari*

# ALBA today

3 GeV e- synchrotron  
270 m circumference  
250 mA operating current  
> 98% availability

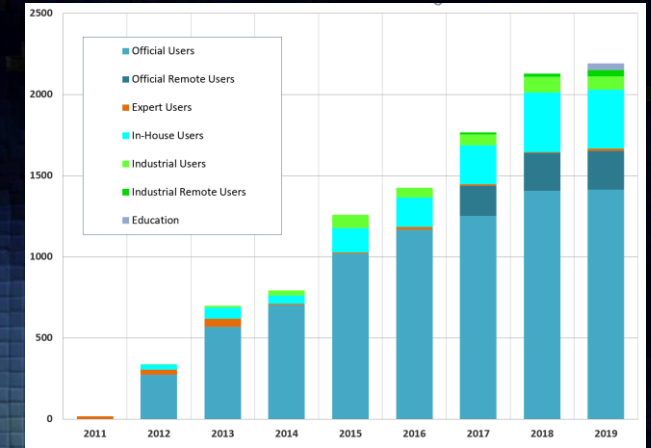

+1950 publications

+300 yearly experiments

# ALBA science and users

+ 2200 user visits/y

2/3 from Spain

User database:  
2873 national  
2675 international users

## Registered Users

Continuous increase of proposals #

# Few highlights from the many scientific results published in the last months

## DEVELOPMENT OF A NEW ENZYME FOR THE RECYCLING OF PET PLASTIC WASTE INTO NEW BOTTLES

Nature 580,(2020)  
[doi.org/10.1038/s41586-020-2149-4](https://doi.org/10.1038/s41586-020-2149-4)

## ARTIFICIAL DOUBLE-HELIX FOR GEOMETRICAL CONTROL OF MAGNETIC CHIRALITY

ACS Nano 2020. DOI: 10.1021/acsnano.0c00720

## MICROPLASTICS DETECTED FOR THE FIRST TIME IN A FRESHWATER LAKE IN THE ARCTIC

Science of the Total Environment 722, 137904.  
<https://doi.org/10.1016/j.scitotenv.2020.137904>

## NANO-BARBER POLES": HELICAL SURFACE MAGNETIZATION IN NANOWIRES

### CIRCE & MISTRAL

Nanoscale, 2020.  
DOI: [10.1039/D0NR05424K](https://doi.org/10.1039/D0NR05424K)

## OLIGOMERIC MATERIALS TO ENHANCE WATER SPLITTING

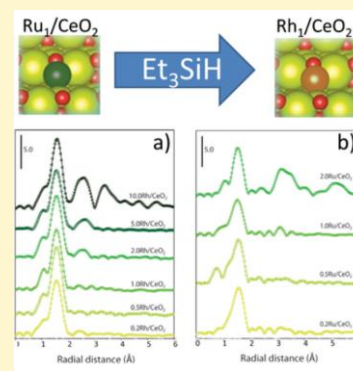

Nat. Chem. 2020 (DOI: 10.1038/s41557-020-0548-7)

## NANOTECHNOLOGY-BASED SYSTEM THAT CAN TRANSPORT METHANE AT LOWER PRESSURE AND COST

. Am. Chem. Soc, 2020,  
DOI: <https://doi.org/10.1021/jacs.0c01459>  
[1103/PhysRevLett.124.087206](https://doi.org/10.1103/PhysRevLett.124.087206)

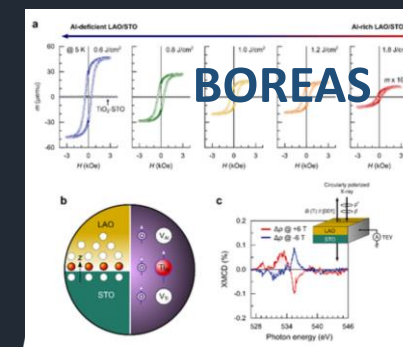

## OPTIMIZING THE PRODUCTION OF ORGANOSILANES WITH SINGLE-ATOM CATALYSIS

### CLAESS

Angew. Chem. Int. Ed. (2020).  
DOI: [10.1002/anie.201915255](https://doi.org/10.1002/anie.201915255)

## UNEXPECTED PHYSICS IN COMPLEX OXIDE INTERFACES: MAGNETIC ORDERING TUNED BY DEFECTS

<https://doi.org/10.1038/s41467-020-17377-0>

Technological transfer

Dedicated staff

Industrial beamtime in all BLs

Industrial relevance of academic experiments

Industrial participation in BL funding (Henkel @ FaxTor)

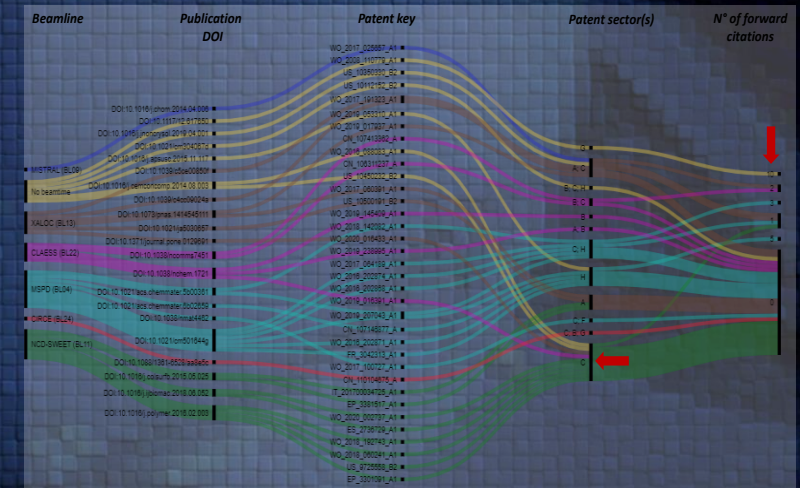

ALBA innovation

Patents citing publications

243 ALBA P1 publications (blue dots)  
out of a total of 9974 are directly cited  
by 337 patents (red dots)

2013-2020 Beamtime hours / company - Historical  
56 different companies - 3095 h

15 patents + 337 citing ALBA

Today

Increasing # of National collaboration projects

Minerva: BL in collaboration with ESA

Credit: ESO/M. Kornmesser & ACO Team

ALBA  
collaborations

European Commission

Agreement with Portugal

Chairing LEAPS on 2020 and 2021

ARIE spokesperson for start-up the collaboration

+170 students trained

+7500  
outreach

visits per year

220 staff

Outreach projects  
for children

High-qualified  
job offers

Positive Economic  
return of investments

## ALBA & society

Organization of scientific  
and industrial workshops  
for pharma, chemistry,...

Academic and  
Industrial PhDs

Involvement in  
educational programs  
from schools to  
universities

Contributing to  
health, clean energy, advanced  
technologies, climate change,  
environment, food, agriculture,  
transport & mobility, security, cultural  
heritage,...

International submitted proposals  
and success ratio

*Proposals submitted from 45 countries, granted to 41*

## History of Portuguese participation to ALBA calls

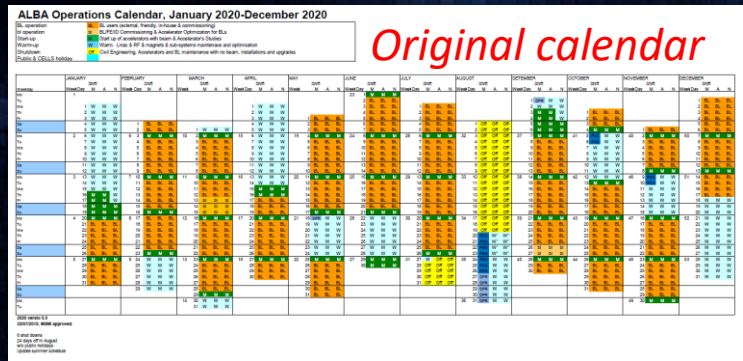

Iberian treatment applied in 2018  
to Portuguese users

Agreement signed between  
FCT and ALBA in Feb 2019

# Some figure of ALBA during 2020

-20% of beamtime

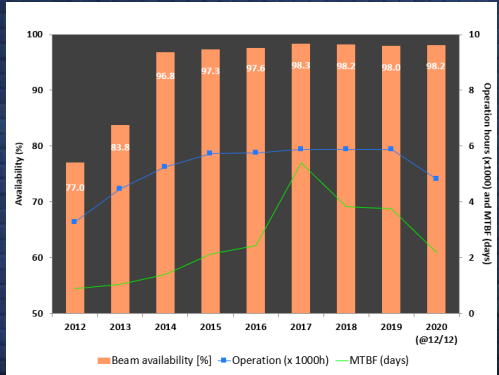

Combining teleworking and presence at the facility

**ACADEMIC USERS**  
Originally scheduled proposals: 263  
Performed proposals: 251 (95%) + 7 COVID-10 ones

First photons in 9<sup>th</sup> BL in July 2020  
+ construction of 10 to 13 BLs on going

Availability + 98%

**STAFF**  
Positive tested: 1 (October)  
Suspected positive: 17 (Spring)

**No evidence of any contagion inside the facility**  
**No user has been infected or has infected**

# COVID-19 related research

## Inhibition of viral replication using microtubule modulators.

Mebendazole (a in clinical use antiparasite) blocks the activation conformational switch of tubulin precluding the use of microtubules for viral infection (Data acquired at XALOC)

This blockage of the activation is reflected in an effective inhibition of viral replication by compounds using this mechanism of action (Data obtained at INIA)

Viral replication inhibition correlates with the inhibition of movement over microtubules (Data obtained at CIB)

The inhibition of the viral replication is caused by the blockage of the movement of viral particles over the infected cell microtubules. Microtubules labelled in green, viral particles over dynein in red (Data obtained at CIB).

Eight different experiments in 2020 –  
1 from PT, 1 pharma – all on quick access  
+ six in the 2021-I call

# Plans for the future: ALBA II - Building on existing infrastructures

ALBA can leap from 3<sup>rd</sup> to 4<sup>th</sup> generation before fully completing the BL portfolio and profit from the space for optimization

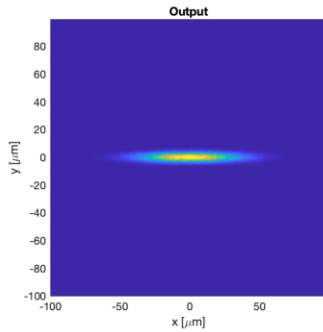

Accelerator new systems

Space for new BLs  
Space for long BLs (nanobeam needs long transfer lines)

# ALBA-ALBA II photon beam comparison

ALBA

ALBA II

*Photon beam at the sample position at XALOC Beamline with ALBA and ALBA II (simulations)*

*Brilliance of Insertion Devices at ALBA (dashed lines) and at ALBA II (solid lines)*

# Preliminary timeline

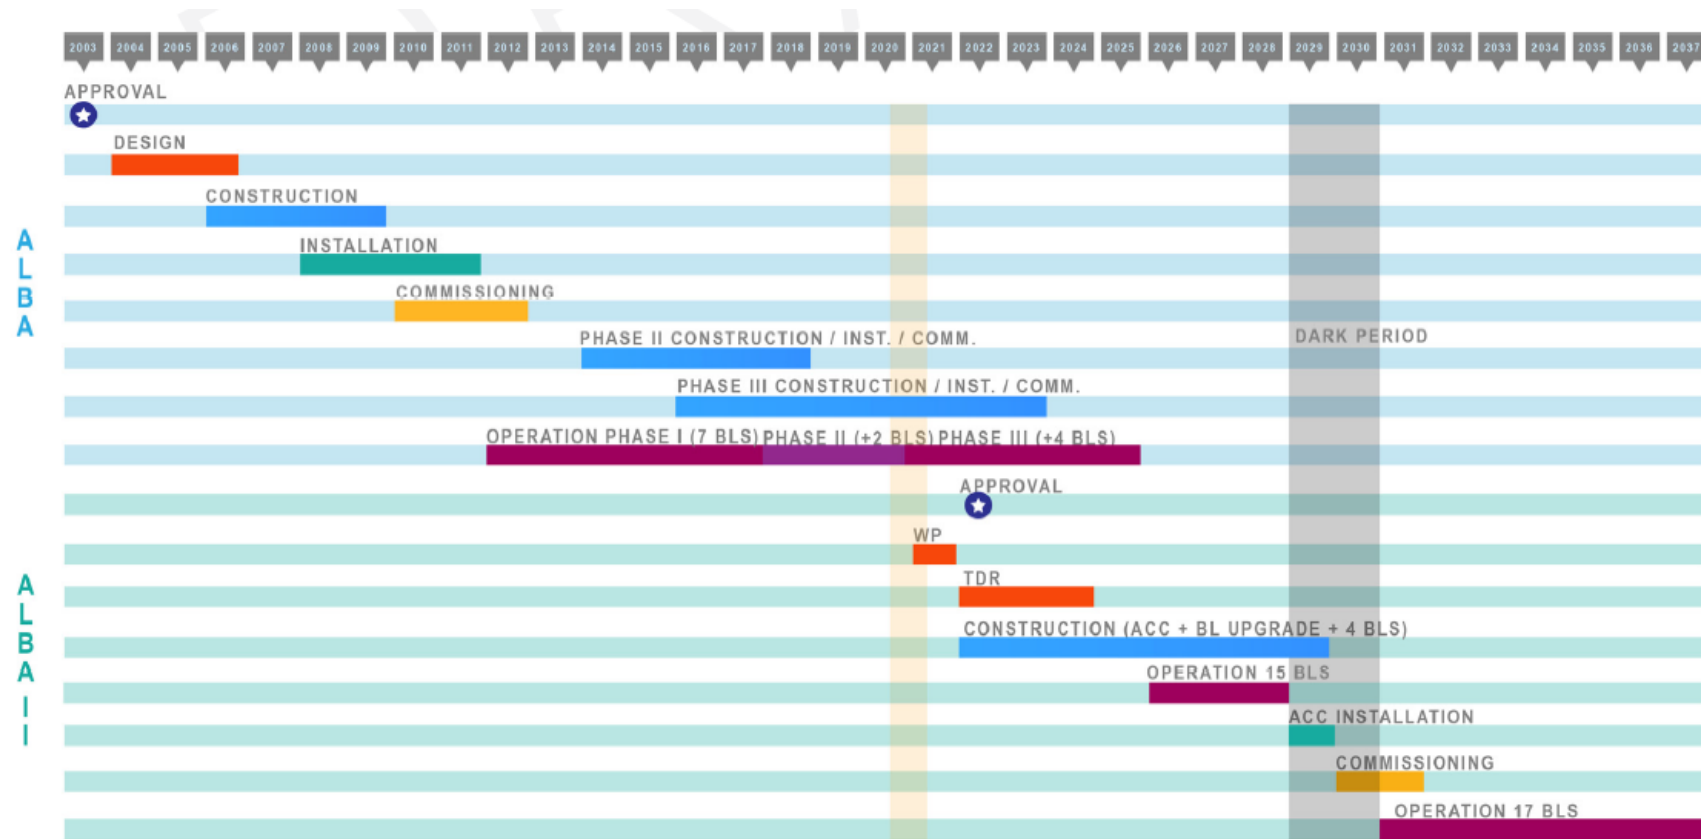

Figure 6– ALBA II timeline. The dark time corresponds to the period with no operation, used for installation and commissioning.

# ASTIP (Alba Science-Technology-Innovation Park)

## Evolution of Parc de l'ALBA

**Proposal** of developing ALBA surroundings in collaboration with other scientific and technological institutions (i.e. IFAE, ICN2, ICMAB, UAB, CSIC). Plan supported by Ayuntamiento de Cerdanyola del Valles

Synergies:

- Quantum Technology (IFAE, ICN2)
- Data Center (PIC @ IFAE)
- Nanotechnology (ICN2)
- Energy materials
- Detectors (IFAE)
- Shared Advanced Microscope Platform @ ALBA
- Structural Biology center (IBMB)

Guest house serving a wide scientific community  
Auditorium for large events

**ALBA Rector Council, in its 40th session, held on 16 December 2020, has approved the launching of the ALBA II project design**

Thank you for your attention

Thank you for your participation

Looking forward to strengthening our collaboration
