

ALBA II - Workshop on Spintronics and synchrotron radiation

Monday, 17 May 2021

Session III: Session III (14:15 - 16:45)

-Conveners: Stefania Pizzini

time	[id] title	presenter
14:15	[17] ALBA PEEM capabilities for investigating spintronic materials	Dr FOERSTER, Michael Joachim Ulrich
14:30	[11] ALBA TXM Capabilities for investigating spintronic materials	Dr ABALLE ARAMBURU, Lucia
14:45	[12] Pushing the limits of magnetic microscopy: time, space and analytics. Why and how?	Prof. FRUCHART, Olivier
15:15	[13] Coherent X-rays for three dimensional imaging of magnetic systems and their dynamics	Dr DONNELLY, Claire
15:45	[14] New developments in synchrotron radiation based ferromagnetic resonance techniques	Prof. HESJEDAL, Thorsten
16:15	[15] Spin Currents in Antiferromagnets	Prof. HOFFMAN, Axel
